**UNITED FIREFIGHTERS
OF LOS ANGELES CITY**

With more than 400,000 calls for service every single year, Los Angeles City Firefighters and Paramedics are constantly on the go...

Structure fires. Medical emergencies. Car accidents. Chemical spills. Natural disasters. Train wrecks.

The list goes on and on.

In times of crisis, when we need our Firefighters, they are there for us 24 hours a day, 7 days a week.

With budget cuts during the economic downturn, our Fire Department was cut to the bone, making the LAFD the most understaffed big city Fire Department in America.

But now we are making a comeback. Through the leadership of elected officials like Herb Wesson, public safety is once again becoming a priority in the City of Los Angeles. We are hiring new Firefighters and Paramedics. We are taking steps towards restoring previously cut Fire Department trucks and ambulances.

Now, more than ever, we need strong leaders on the Los Angeles City Council who will fight for your safety and demand that we have a properly staffed Fire Department.
